-- The MAILING DATE of this communication appears on the cover sheet with the correspondence address --

### Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) OR THIRTY (30) DAYS, WHICHEVER IS LONGER, FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

### Status

- 1) ☐ Responsive to communication(s) filed on \_\_\_\_.
- 2a) ☐ This action is **FINAL**. 2b) ☒ This action is non-final.

***Claim Objections***

1. Claims 4 and 5 are objected to under 37 CFR 1.75(c) as being in improper form because a multiple dependent claim must refer back to a preceding claim. The language “any one of the preceding claims” does not specifically refer back to a preceding claim. See MPEP § 608.01(n). Accordingly, the claims have not been further treated on the merits.

***Claim Rejections - 35 USC § 103***

2. The following is a quotation of 35 U.S.C. 103(a) which forms the basis for all obviousness rejections set forth in this Office action:

(a) A patent may not be obtained though the invention is not identically disclosed or described as set forth in section 102 of this title, if the differences between the subject matter sought to be patented and the prior art are such that the subject matter as a whole would have been obvious at the time the invention was made to a person having ordinary skill in the art to which said subject matter pertains. Patentability shall not be negated by the manner in which the invention was made.

3. Claims 1-3 are rejected under 35 U.S.C. 103(a) as being unpatentable over Knez (D369,845) in view of Ranseen (1,670,123). Regarding claim 1, Knez discloses a device for supporting a golf ball comprising a supporting means and a plurality of bristles extending from the support means. The bristles are obviously capable of supporting a golf ball thereon. The tee of Knez appears to be capable of receiving a conventional tee within the central core for anchoring the tee in the ground.

Ranseen teaches a golf tee arrangement including a cap (15) that receives a golf tee (8) for anchoring purposes. It would have been obvious to one of ordinary skill in the art to manufacture the device of Knez to a size that is capable of receiving a golf tee within the device in order to firmly secure the member in the ground.

Regarding claim 2, Knez includes a notch in the periphery of the support means. The notch is obviously capable of releasably attaching the device to a golf tee.

Regarding claim 3, note Figures 3 and 4 of Knez showing a C-shape for the device.

***Conclusion***
